INDUSTRIAL
CONVEYOR SHREDDERS

Standard Features

- **Belt-Feed Industrial Shredding System:** Designed to shred entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks
- **LED Control Panel:** Integrated digital load indicator and sensors
- **Front Waste Bin Access:** Front cabinet door allows the shredder to be placed against a wall to maximize space savings
- **Auto Start/Stop Mode:** Optical sensor detects paper and starts operation automatically
- **Manual Mode:** Shredder operates continuously for shredding small sized paper or films
- **Door Safety Sensor:** Motor stops automatically if cabinet door is opened
- **Auto Reverse:** In case of paper jam, built-in controls switch motor into reverse to clear jam
- **Waste Bin Full Sensor:** When the waste bin is full the motor stops automatically
- **Auto Cleaning:** Allows the motor to run in reverse for one minute to clear shred particles
- **Self-Diagnosis System:** Provides a variety of operational data with optional diagnostic reader
- **Heat-Treated Solid-Steel Cutters:** Specially ground for longevity and require minimal oiling
- **Large Safety Bar** to stop operation
- **Mobile Waste Bin on casters**
- **Thermal Overload Protection**
- **Safety Circuit Breaker:** Ensures safe operation
- **Safety Key and Lock:** Provides maximum control of the shredder

Options

- **EvenFlow™** automatic oiling system
- Additional **Waste Bin on casters**

Warranty

- **10-Year Limited Warranty** on cutting head
- **1-Year Warranty** on all other parts

Commercial-grade power for large volume shredding

The Formax FD 8802CC and FD 8802SC are the most advanced high volume industrial shredders available. These high-capacity conveyor-fed shredders combine fully-automated features with the rugged, industrial strength needed for high volume centralized shredding. Standard features include an LED control panel with load indicator and user-friendly features such as Auto Start/Stop, Auto Reverse, and Auto Cleaning while providing enough power to shred up to 125* sheets of paper in a single pass. The optional EvenFlow™ automatic oiling system with heavy-duty copper nozzles lubricates the all-steel cutting blades, helping to keep the FD 8802CC and FD 8802SC in peak operating condition.

* FD 8802SC sheet capacity.

LOCAL DEALER:

Powerful

Formax 8802 Series Industrial Shredders are powerful enough to shred entire files, stacks of computer forms, tapes, CDs and ZIP disks with specially heat-treated solid-steel cutting blades and a powerful AC geared-motor. The FD 8802CC shreds up to 90 sheets in one pass and operates at a speed of up to 40 feet per minute. The FD 8802SC shreds up to 125 sheets in one pass at a speed of up to 50 feet per minute.

User-Friendly Control Panel

The 8802 Series offers unmatched automated features through its LED control panel. The easy-to-read Load Indicator assists operators in determining how close they are to the maximum shred capacity to avoid jams and provide optimal efficiency. Indicators also notify operators when the waste bin is full or the cabinet door is open. Operators can select from two modes of operation: Auto Start/Stop or Manual. Auto Start/Stop mode utilizes optical sensors which detect paper and start/stop operation automatically. Manual mode provides non-stop operation for shredding small sized paper or films.

Easy to Maintain

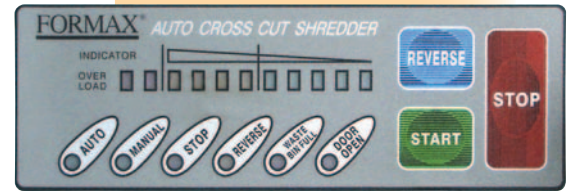

Keeping the 8802 Series in top condition is easy to do. With the Auto Cleaning function, clearing the blades of shredding debris is as simple as pressing Reverse on the control panel. And with the optional EvenFlow™ automatic oiling system, heavy-duty copper nozzles lubricate the all-steel cutting blades, helping to keep the shredder in peak condition for optimal efficiency.

Designed for Safety

Safety is an important component in the 8802 Series design and engineering. A large 18" wide safety bar is located in front of the conveyor belt system and will shut down the shredder instantly when pressed. A safety key and lock system is also included to ensure the shredder is operated only by authorized staff.

Specifications:	FD 8802CC	FD 8802SC
Cutting Style:	Cross-Cut	Strip-Cut
Shred Size:	1/4" x 2"	1/2"
Sheet Capacity:	75 - 90*	105 - 125*
Speed:	Up to 40 fpm	Up to 50 fpm
Feed Opening:	16"	16"
Dimensions:	29" W x 48 3/4" D x 47" H	29" W x 53" D x 50 1/2" H
Bin Capacity:	36 gallons	49 gallons
Weight:	661 lbs. actual weight	727 lbs. actual weight
Power Supply:	3-Phase, 220V, 50/60 Hz NEMA L15-20P plug included NEMA L15-20R receptacle required	3-Phase, 220V, 50/60 Hz NEMA L15-20P plug included NEMA L15-20R receptacle required

* Sheet capacity may vary due to variations in paper and power supply.

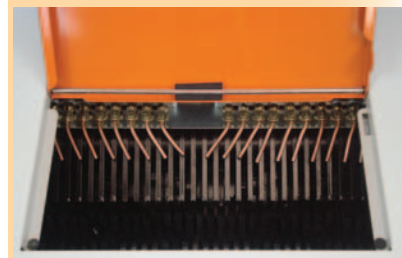

User friendly LED control panel with visual load indicator

Keyed "On/Off" switch

Large infeed deck with conveyor belt feeder and safety bar for immediate shut down

Optional EvenFlow™ Oiling System heavy-duty copper nozzles

Optional EvenFlow™ Oiling System reservoir and pump
